Two things are important in life – purpose and meaning; however, citizenship and public welfare simply provide the necessary conditions for them. If one thinks about this properly, a modern civic society isn't the worst place we can live our lives in, as long as the will to improve our way of life has not been extinguished.

Ralf Dahrendorf

Enlightenment is man's emergence from his self-imposed nonage. Nonage is the inability to use one's own understanding without another's guidance. This nonage is self-imposed if its cause lies not in lack of understanding but in indecision and lack of courage to use one's own mind without another's guidance. *Sapere aude!* "Have the courage to use your own understanding", is therefore the motto of the enlightenment.

Immanuel Kant "Answering the Question: What Is Enlightenment?"
